Mental Health Access

Mental illness and addiction are public health crises, not criminal issues. As your State Representative, Lisa will advocate for better access to care; stronger funding for addiction prevention, treatment and recovery

support services; and reforms to the criminal justice system that will address addiction with treatment rather than with punishment.

Fighting Climate Change

Already, we are seeing more extreme weather conditions due to climate change. While it affects all of us, it has affected lower-income and marginalized communities more acutely, and

bold action is needed. Lisa will call for accountability measures to meet the 100% renewable energy targets by 2050, and for investment in green jobs and infrastructure.

Affordable Housing

The COVID-19 pandemic has put into stark relief just how vulnerable our housing situation is. Lisa will fight for better zoning, caps on rent increases, better tenant protections, and the

development of more affordable housing units.

Accountability & Transparency

Massachusetts is one of the least transparent legislatures in the country. Important legislation supported by a majority of residents is killed year after year in back rooms without any public record. Lisa will make all committee votes public and call for a roll call vote on all bills that are important to you.

"I've spent 25 years helping teams manage major transformations and specialize in helping groups make big changes. I'm ready to put my passion for problem-solving and negotiation skills to work for you. I ask for your vote on September 1st."

A handwritten signature in black ink that reads "Lisa Arnold".
